- Lake
- Marion
- Martin
- Orange
- Owen
- Parke
- Pulaski
- Putnam
- Starke
- Warren (reported w/Fountain)

Number of PHNs per 10,000 population

Indiana's Population
2000 Census

6,080,485

Less the counties
w/o information

Minus 1,608,646
=
4,471,839

PHNs per 10,000
(2009 PHNs = 204)

Average in
Indiana equals
0.46
PHNs/10,000

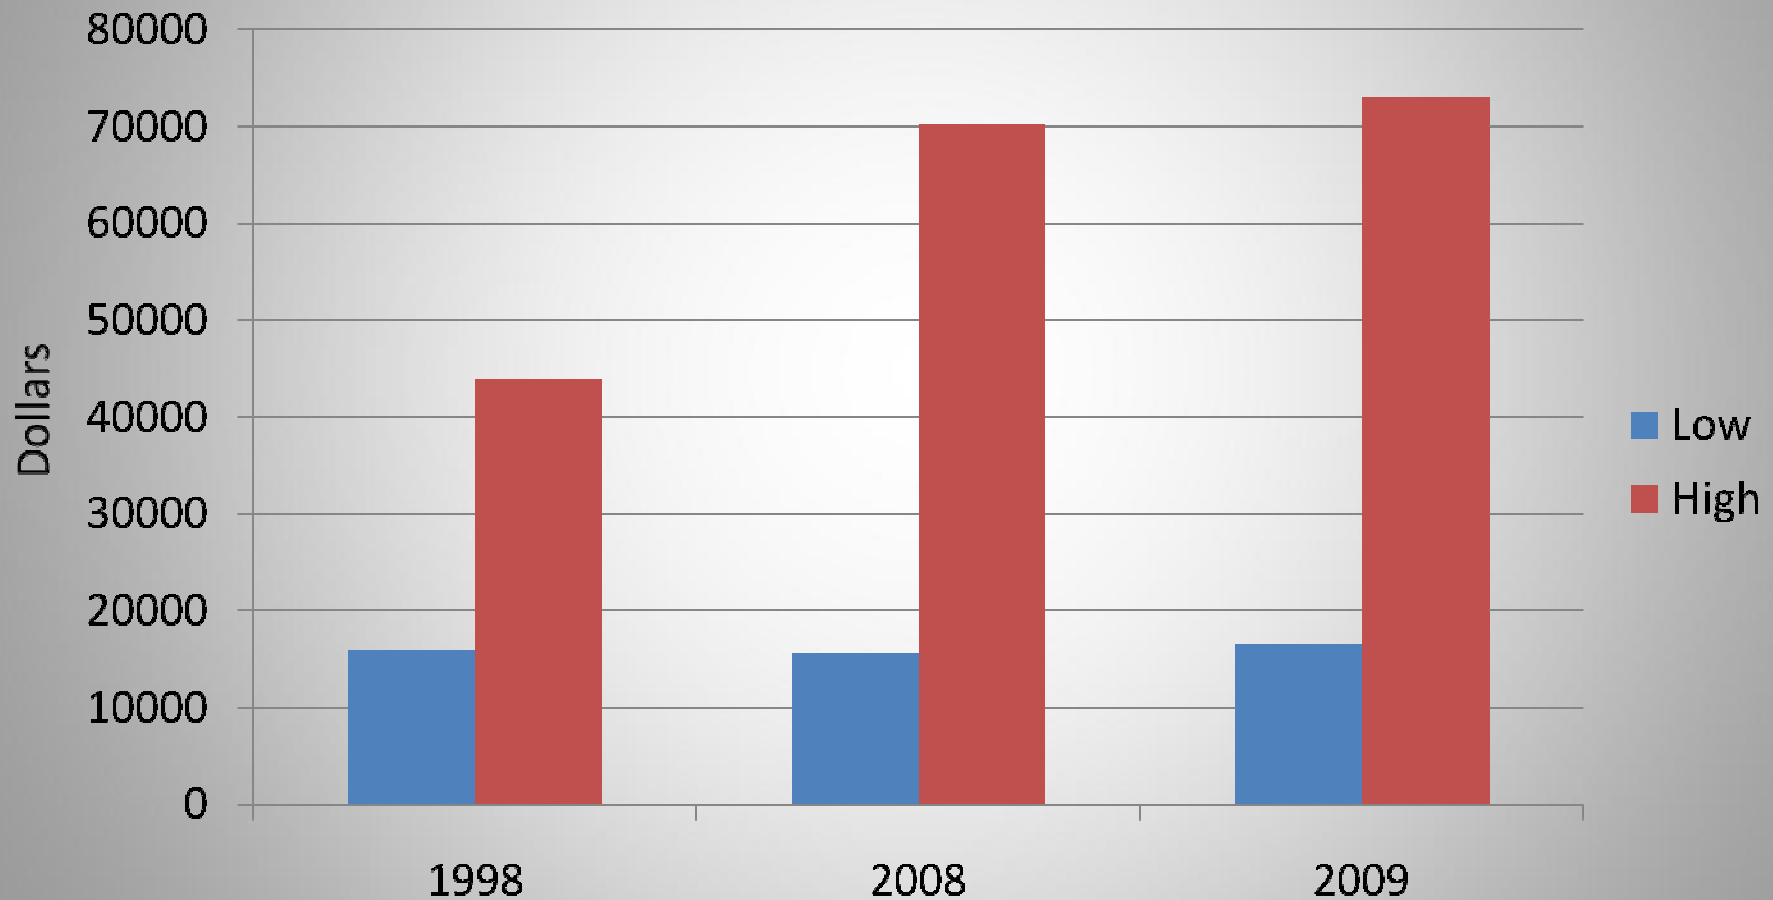

Increased Demands on PHNs in the Last 10 Years

- Huge increase in the number of childhood immunizations given
- Inclusion of refugee health
- Increased communicable disease investigations
- Preparedness planning
- And many other areas!
